Description

REF: HCB-A1777
H.C.B-A1777 BENZ (M177/ M178) CAMSHAFT TIMING TOOL KIT
Description:
This tool kit is used for aligning the camshaft to TDC.
It consists of several metal rods of varying lengths, a blue-handled tool, and a white plastic component.
The rods are used to adjust the timing of the camshaft.
The blue-handled tool is used to lock the timing.
The white plastic component is used to mark the timing.
The kit is used for the following engines:
- Mercedes-Benz M177
- Mercedes-Benz M178
